

LOCOTRADER

Trade Your Rules. Not Your Feelings.

MARKETING HUB

Brand Positioning

Identity, voice guidelines, and messaging framework

Prepared: July 2026
Founder: Erick Mafole

Status: Confidential
Location: Dar es Salaam, Tanzania

Brand Identity

Name: LocoTrader

Tagline: "Trade Your Rules. Not Your Feelings."

Category: Trading Discipline Operating System

Brand Archetype: The Ruler/Coach - authoritative, protective, no-nonsense

Positioning Statement

For prop-firm and retail forex/futures traders

Who lose money due to emotional decisions, revenge trading, and rule violations

LocoTrader is a mobile-first trading discipline OS

That enforces your rules BEFORE you can enter a trade - not after the damage is done

Unlike TradeZella, TraderSync, and Edgewonk (reactive journaling tools)

Our product prevents the mistake from happening in the first place through pre-trade gates, AI-powered personal edge detection, and automatic behavioral lockouts.

Core Brand Values

1. Discipline Over Motivation - Motivation fades. Systems don't.
2. Prevention Over Cure - Block the mistake before it costs you \$500.
3. Evidence Over Opinion - Every insight backed by YOUR data, not generic advice.
4. Accountability Over Comfort - The app won't let you lie to yourself.
5. Accessibility Over Exclusivity - Institutional-grade tools, \$0/month.

Voice & Tone Guidelines

Brand Voice: "No-BS Disciplinarian Coach"

Do	Don't
"Your stacking win rate is 8%. Stop.	"Consider reducing your stacking frequency"
"You lost 23 straight trades at 09:.	"Morning sessions may not be optimal"
"Gates blocked your entry. Good. Yo.	"The system suggests waiting before your ne.

"572 trades don't lie. Here's your .

"Based on our analysis, you might consider..

Tone Spectrum

- App notifications: Direct, short, urgent ("? 3 red trades. Locked for 24h.")
- Marketing content: Provocative + educational ("73% of you are losing because of THIS, not your strategy")
- Social media: Raw, relatable, data-backed ("Traded EU at 09:00 EAT for 3 months. 23 consecutive losses. Here's the spreadsheet.")
- Investor communications: Professional, metrics-driven, vision-clear

Language Rules

- Never say "might" or "consider" - say "do" or "stop"
- Never use trading jargon without context for non-traders
- Always include a specific number/stat when making a claim
- Use "you" not "users" or "traders" - personal, direct
- Short sentences. No fluff. Every word earns its place.

Messaging Framework

Primary Message (Hero)

"The only trading app that blocks you from entering a bad trade."

Supporting Messages

Audience Segment	Message	Proof Point
Prop firm traders	"Stop failing challenges.	Drawdown engine + daily c.
Revenge traders	"After 3 red trades, you.	Auto-lock feature, integr.
Journal skeptics	"Journals tell you what .	Gate system blocks entry
Cost-conscious	"TradeZella charges \$99/.	Free tier with Gemini AI
Data lovers	"After 30 trades, the ap.	Personal Edge Map with ti.

Visual Identity Direction

Color Palette

- Primary: Deep navy (#0F172A) - authority, trust, seriousness
- Accent: Electric green (#10B981) - profit, gates passing, go-signals
- Warning: Amber (#F59E0B) -> Red (#EF4444) - drawdown spectrum
- Background: Slate (#1E293B) - dark mode native (traders use dark themes)

Typography

- Headlines: Bold, condensed sans-serif (Impact/authority feel)
- Body: Clean, legible sans-serif (Inter, SF Pro)
- Data/Numbers: Monospace (JetBrains Mono, SF Mono) - precision feel

Imagery Style

- Real trading data screenshots (with permission)
- Before/after equity curves
- Gate system blocking entries (product shots)
- Dark, moody, professional - NOT gamified or neon-bro
- No stock photos of people in suits pointing at screens

Competitive Positioning Map

LocoTrader owns the top-right quadrant: Proactive + Affordable. No competitor occupies this space.

Brand Promise

"If you follow your rules, you will be profitable. We make sure you follow your rules."

Elevator Pitch (30 seconds)

"73% of retail traders lose money - not because of bad strategy, but because they can't follow their own rules. LocoTrader is the first trading app that actually BLOCKS you from entering a trade until your pre-trade checklist passes. It's like having a risk manager sitting next to you, except it's on your phone, it's powered by AI that learns YOUR specific patterns, and it costs \$0 per month. We're launching a one-time lifetime deal, then it's gone forever."

Sources: Retail trader loss statistics from EU broker disclosures (ESMA MiFID II requirement - brokers must disclose % of retail clients losing money; average across major brokers is 70-76%). Market data from Mordor Intelligence Online Trading Platform Market Report (2026).
